Experience

Kia Motors India-Jrengineer

2021 - 2022

My work in Kia motors is to assemble the different types of car parts and also worked at a quality checkpoint to make sure no defects pass outside the plant.

Project

Unsplash

On this page total 5 people worked as a team and did this website in 4 days. we used HTML CSS and javascript to complete this project we used API to fetch the data into the pages and we have included the feature any person can upload a photo to the site.

youtube

On this page I used HTML CSS and javascript to complete this project to view the data I have used API to fetch the data into the pages and after clicking on any photo we will be redirected to another page to watch the video in full screen.

food ordring webite in restraunt

On this page I used HTML CSS and javascript to complete this project we can see the count of the items added to the cart in the navbar and on the checkout page we can see the total amount on the top of the site. we can go ta any page by clicking on the navbar.

Achievements

I joined Kia motors India as a Jr.engineer there I learned things very fast I can assemble any part in more than 13stations. after that, I took the Full-stack web development course and did lots of projects like cloning Myntra, Unsplash, movie booking, food ordering, etc...
